MEMORANDUM LABORATORY REPORT

RE: UNKNOWN SUBJECT  
UNKNOWN SUBJECT - VICTIM;  
UNKNOWN SUBJECT - VICTIM;  
UNKNOWN SUBJECT - VICTIM;

Specimens Q1, Q2 and Q3 were received at the Laboratory on January 25, 1945 from the Bureau of Investigation, United States Department of Justice.

- Q1 Envelope addressed to Mr. J. E. [illegible] dated Jan. 8, 1945.
- Q2 Accompanying first page of letter beginning "Dear Sir: There is a plot ....."
- Q3 Second page of accompanying letter beginning "here to shoot the ball ....."

The handwriting on specimens Q1, Q2 and Q3 was searched through the National Security File and through the Anonymous Letter File without effecting an identification. A suitable photographic copy of this handwriting will be added to the Anonymous Letter File for future reference and comparison.

Specimens Q1, Q2 and Q3 were chemically processed for the development of latent fingerprints, but no prints of any value were developed.

Specimen Q1 is a white linen finish envelope measuring 5.46 inches in length by 3.46 inches in width by 0.005 inches in thickness. This specimen weighs three grams and contains the watermark "By Toner". This watermark is registered for the Western Tablet and Stationery Company, St. Louis, Missouri.

Specimens Q2 and Q3 are sheets of white bond paper resembling [illegible]. These sheets measure approximately 7.59 inches by 3.29 inches in thickness. Specimen Q2 weighs 1.423 grams and specimen Q3 weighs 1.374 grams. Neither of these specimens contains a watermark.

Specimens Q1, Q2 and Q3 are being retained at the Laboratory.

A typewritten copy of the threatening letter is being [illegible]

Envelope addressed to "Dr. F. L. McCluer, Fulton, Mo."

 EXTORTION

DATE: January 29, 1946

Reference is made to a letter dated January 24, 1946 from the Kansas City Field Division with which were transmitted specimens Q1, Q2 and Q3 in connection with the above captioned matter.

Due to the suggestion of the Kansas City Field Division as contained in the last paragraph of the incoming letter, the results of the examination of specimens Q1, Q2 and Q3 are set forth in Memorandum Laboratory Report #D-47987 rather than in the usual Laboratory Report. This Memorandum Laboratory Report is attached hereto.

*See index*

RECOMMENDATION: It is suggested that this Memorandum Laboratory Report be forwarded to the Security Division in order that the results of the examination of specimens Q1, Q2 and Q3 may be forwarded, if so desired, to the Kansas City Field Division and appropriate officials of the State Department and the White House.

For the information of the Bureau arrangements have been made to obtain the palm prints of [REDACTED] STASSEN, [REDACTED] for identification purposes in view of the fact that [REDACTED] palm prints on the envelope containing the extortion letter. [REDACTED] will be forwarded to the Bureau as soon as they are obtained.

[REDACTED] and [REDACTED] contain the "crank" files of [REDACTED] for the years 1941 and 1949. From these files three letters were obtained which are being transmitted herewith to be compared by the laboratory with the extortion letter.

The first letter is dated 11/11/48 at Pittsburgh, Pa., on an unlined paper and is entirely handwritten. It is signed "A Republican Voter." This letter is submitted in view of the fact that it might identify the author of the extortion letter as being a resident of Pittsburgh. The words "file" in the upper right-hand corner of the letter and the initials of the following letters were written by Mr. STASSEN.

The second letter is written in ink at the top "Honorable LAPOIDE, STASSEN, 10/14/49," and is signed by [REDACTED]. On the back there are four mimeographed pages; on the second page is the address and a rewriting of [REDACTED].

The third letter is written in ink at the top "Honorable STASSEN, 10/14/49," and is signed by [REDACTED]. There are two letters stapled together in this group and contain handwritten notes on the second page.

The Laboratory is requested to compare the above items with the extortion letter with a view to determining whether the original extortion letter. When these items are compared, their value should be returned to this Office.

In view of the fact that the President of the United States and members of his cabinet may be in attendance at a future date when the President speaks in Philadelphia, it is thought perhaps that the above letter will be called to the attention of the Secret Service. The matter will be called to the attention of the local office of the Secret Service (USCS). In contacting the Secret Service it is thought perhaps they may have letters of similar content to the President from the Pittsburgh area and it is suggested that these letters might be obtained to be compared with the present extortion letter received by the above victims.

The Pittsburgh Office is requested to ascertain from the postal authorities whether the figure "4" on the postmark of the letter indicates a zone or a numbering cancellation machine. The Pittsburgh Office should make arrangements through the postal authorities to be advised of any letters being mailed to HAROLD E. STASCHEN from the area from which the extortion letter was postmarked.

It is suggested that copies of the photographed envelope of the original extortion letter might be made and given to postal authorities to post in a conspicuous place in the Post Office handling the mail from which the extortion letter was posted.

Arrangements will be made with Mr. Staschen for this office to be advised when a definite date has been set for Mr. Staschen's appearance in Philadelphia and the Bureau will be promptly advised.

Enclosed herewith are palm prints of [redacted] a member of Mr. STASSEN'S Staff, and [redacted] Mr. STASSEN. The prints of [redacted] of each of these individuals were taken twice and are enclosed. Prints are to be used by the FBI Laboratory in eliminating prints developed on the original envelope of the extortion letter. [redacted] should be retained by the Laboratory for future use.

Mr. STASSEN stated that he would have [redacted] office as soon as arrangements are completed for the [redacted] Honorable Mr. WILSON STASSEN in Philadelphia. He stated that invitations would again be extended to The President of the United States as well as members of his cabinet, the Ambassador of Great Britain, other Ambassadors, consular officials and attaches. It was his belief that in the event The President did not attend, that post [redacted] Mr. STASSEN would go directly to Washington, D.C., following his speaking engagement here, for conferences with The President. It is understood that this office will be advised of these final arrangements prior to any press release by Mr. STASSEN.

The Pittsburgh Office is requested to review zero files in the area of identification in their office with a view of finding a letter or letters similar in content and handwriting to the extortion letter which was received from their father to the laboratory for comparison with the extortion letter. This same procedure will be followed in the Philadelphia Office.

The Pittsburgh Office will be advised of the final arrangements regarding Mr. CHUCK HILL'S speaking engagement so that the Postal Authorities in the area from which the extortion letter was mailed can be alerted and be on the look-out for a similar letter being mailed following the press release. In view of the unknown subjects threat regarding Mr. CHUCK HILL and Mr. SHASSEN, it is believed that publicity regarding Mr. CHUCK HILL'S speaking engagement in Philadelphia may bring forth another letter.

MAIL OF J. J. [REDACTED],  
ALLEGED SUBJECT - Victims  
[REDACTED]

Re letters to the Bureau May 23 and May 26, 1961.

[REDACTED] Post Office Inspector, 333 New Federal Building, Pittsburgh, Pa., advised that the figure "4" on the post mark of the letter indicates a numbering cancellation machine. [REDACTED] advised that all mail from downtown Pittsburgh is cancelled through cancellation machines numbered 4 or 5, which are located at the end of a conveyor belt at the Main Post Office in Pittsburgh. [REDACTED] further advised that the Post Offices located in the outlying areas of Pittsburgh have their own cancellation numbers; handle their own mail during regular hours; and pointed out that the mail received at the outlying stations after regular hours is brought to the Main Post Office in Pittsburgh, where it is cancelled on either cancellation machine number 4 or 5. He also advised that the mail which is picked up from neighborhood drop boxes and Downtown sub-stations is cancelled on cancellation machine 4 or 5. According to [REDACTED] any mail deposited in Pittsburgh at the railroad stations by passengers riding on through trains would also be cancelled in cancellation machine 4 or 5. All of the above described mail is consolidated for cancellation prior to being sorted for mailing.

In view of the above information, [REDACTED] advised that it would be impossible for postal authorities to advise the [REDACTED] of any mail being sent to RALPH STASSAN from any specific area in Pittsburgh.

As requested in relet dated May 26, 1961, this Office has been kept files in appropriate classifications with a view of finding letters or letters similar in content and handwriting to the [REDACTED] letter without results.

Re: HARMON, W. B.  
HAROLD E. STASSEN  
WINSTON CHURCHILL  
EXTORTION

The Philadelphia Division of this Bureau has received an extortion letter from Harold E. Stassen, President of the University of Pennsylvania, at Philadelphia. The envelope was addressed to Mr. Stassen. It was received in the mail May 17, 1951, in an envelope post-marked May 11, 1951, 9:30 P.M., at Pittsburgh, Pennsylvania, zone four. The letter which was enclosed was dated May 8, 1951, and contained the following threat:

"Did you know that the building was to be blown up if old mouth Churchill was to speak...Both you and his should be blown to pieces."

The letter is not signed but ends with:

"I speaking for twenty-five people."

We are informed that Winston Churchill was originally scheduled to speak in Philadelphia on May 8, 1951. The affair was to be attended by the President of the United States, Cabinet Members, British Embassy Officials, and various Councilmen and Attorneys. Further, that this speaking engagement has been temporarily postponed and arrangements have been made for Mr. Churchill's appearance in the future. Active investigation is being conducted by our Philadelphia Division regarding the extortion note. The above is for your information and whatever future action you may deem advisable.

[REDACTED] advised that he had been fingerprinted while in the Army and that Mr. Stewart's fingerprints should appear in the Navy location of the Army Services.

[REDACTED] advised that she had previously been fingerprinted while she had served on the staff of Ambassador [REDACTED], and the date of her trip to Mexico prior to President MUGERWALL's regime.

In view of the fact that [REDACTED] could not state for sure whether her fingerprints would appear in the Bureau, she advised that she was willing to have her prints taken and they were thereafter taken by SA [REDACTED].

██████████ advised that Mr. ██████████ and ██████████ had "New York  
file" and that he would appreciate having agents perform this office  
effort to find a similar letter in writing to the one which had been re-  
ceived that day. In perusing the files, two letters were obtained for comparison  
purposes. One had a pencil notation at the top "Danvers, Vt., 1941" and  
dated January 1, 1941. A second letter, which ██████████ believed was  
identical in handwriting characteristics, was obtained. This letter had at  
the top "Danvers State Hospital, Haverhill, Mass.", and was signed by one ██████████.

By letter dated May 12, 1961, the Laboratory, together with the two letters above mentioned, was returned to the Laboratory, along with the printed fingerprints of [redacted] b6

~~SECRET~~

X

On May 14, 1951 the Bureau advised by teletype that the results of the laboratory examination reflected the threatening letter envelope was not written by the writers of either of the two letters previously submitted for comparison. It was noted that the extortion envelope was of ordinary white paper containing no watermark. The extortion letter was written on a piece of laid finish ruled tablet paper measuring approximately 5" x 8", with no letterhead.

One latent fingerprint had been developed on the letter but was identified as a fingerprint of [redacted]. No latent partial palm prints were developed on the back of the envelope and remained unidentified. The Laboratory advised that no palm prints of the individuals who had handled the extortion letter were available at the Bureau.

[redacted] and the writer perused the crank files of Mr. STASSSEN for the years 1948 and 1949, on May 14, 1951. This was in answer to a telephone call received at this office from [redacted] who advised he had found these two files after the above interview on May 11, 1951.

After a review of these files with [redacted] three letters were obtained which had some similarity in handwriting. The first letter was dated November 11, 1948 at Pittsburgh, Pennsylvania and was on unlined paper. It was entirely in handwriting and was signed "A Republican Voter." The second letter was written in ink only at the top "Honorable Harold E. Stassen, 10-14-49" and was signed by [redacted]. This letter had a group of four nine-lined pages and on the [redacted] of this group were contained further handwriting specimens of [redacted]. The third letter was written in ink at the top "Honorable Harold E. Stassen, 10-14-49" and was signed by [redacted]. On the second page of this letter, there were further handwriting samples of [redacted].

On May 23, 1951 the above three letters were transmitted to the FBI Laboratory for comparison with the extortion letter in this case.

On May 21, 1951 a copy of the Laboratory report with reference to the first requested examination was received by this office, which contained information previously set out in the Bureau teletype.

By letter dated May 28, 1951, the Pittsburgh Office advised as follows:

10 Prior to the palm printing of Mr. Johnson, he was advised by the FBI representative with reference to the coming wedding engagement of Mr. Johnson and Miss Johnson. It was stated that he would advise this office when arrangements were made.

113

On May 21, 1951 the Philadelphia Office was in receipt of a teletype from the Cincinnati Office with reference to the apprehension of [redacted] - Victim, extortion. This teletype advised that [redacted] had been apprehended and had admitted writing various cards and letters to prominent people. By teletype dated May 21, 1951, the Cincinnati Office was requested to interview [redacted] as to his whereabouts May 11, 1951, and as to whether he had written a letter to Victim STANLEY [redacted] at that date. It was further requested that fingerprint comparisons be made on the letters written by [redacted] with the extortion letter in this case.

[redacted], Agent in Charge of the local office of the U. S. Secret Service, 400 Locust House, Philadelphia, was interviewed by the writer. After examining photostatic copies of the extortion letter, he advised that the writing did not appear similar to any of the "Harari" letters usually received by the President from this area. It was [redacted] suggestion that the Bureau, through the liaison agent, compare the extortion letter with letters submitted by [redacted] of the White House Detail, Secret Service in Washington, D. C. [redacted] was advised that when this office is in receipt of the final arrangement for Mr. McMillan's appearance in Philadelphia, the local office of the Secret Service will also be advised. [redacted] advised that in the past, the Secret Service has had a liaison agent to meet and greet Mr. McMillan during his visits in this country.

[redacted] further suggested that perhaps the Agent in Charge of the Secret Service office in Pittsburgh might throw some light on the identity of the unknown extortionist.

The following is a description of Victim HAROLD E. STANLEY, as obtained from personal observation:

[redacted] also pointing to the fact that on 11, 12, 13, and 14, an extension letter in this case was mailed, in attempt to determine whether or not he is the individual who wrote the extension letters. In submitting letters written by [redacted] they should be sent to the Laboratory to also compare these letters with the letters of [redacted].
